

# ***SEIB CEO Farid Chedid joins Club of Elites***

*Posted by Qatar is Booming on Jan 15, 2012 in Banking, Finance & Insurance*

**Mr. Farid Chedid**, Chief Executive Officer of SEIB Insurance and Reinsurance Company LLC has become a member of the MENA Insurance CEO Club (MICC), a think-tank committed to the development of the insurance industry. He joins two other executives in the region to be invited to the group in 2012. Significantly, Mr. Chedid would be the only member of the group to represent a Qatari insurance company.

MICC was launched nearly two years ago, with a mission to lead the future development of the insurance industry in the region, and offers a high-level networking platform to exchange idea and experiences. The forum also identifies and tackles key issues to meet the growing needs of the market.

“This is one of the highest honors that can be bestowed on anyone in the regional insurance industry,” said Mr. Farid Chedid. “I look forward to working with the most experienced and talented individuals in the field as we develop the industry, but of course at the same time, be

committed to the well-being and development of the insurance industry specifically here in the State of Qatar.”

In welcoming Mr. Chedid and his colleagues into the Club, **Dr. Bassel Hindawi**, member of the Steering committee remarked:“...Given their illustrious careers and commitments to the region, we are confident that they will be able to contribute significantly to the Club’s mission to serve as a think tank to shape and spearhead the future development of the regional insurance industry.”
