# MGA Momentum Risk Solutions to launch into FI with Talbot's Howgill

The MGA has built out a suite of products, including a planned launch into political violence.

Chedid Capital-owned MGA Momentum Risk Solutions has hired Paul Howgill from Talbot to lead a launch into the financial institutions (FI) market, *Insurance Insider* can reveal.

Chedid Capital is an insurance specialist investment group based in Lebanon, which has subsidiaries including Chedid Re and is looking to scale its global governance capabilities.

Momentum has been expanding its suite of products as part of a global expansion drive at Chedid Capital.

To support this expansion, former Sampo Canopus CEO Stuart Davies was appointed as a strategic committee member last year.

Momentum is also expanding into the political violence market, and *Insurance Insider* reported in March that **Matt Bird was joining the company** from Talbot to lead the expansion.

FI specialist Howgill has worked at Talbot since 2021, following seven years at AIG.

He has also worked at Chaucer, IGI and Swiss Re.

Momentum CEO Edward Traboulsi said: "The launch of our financial institutions offering marks a significant step in the continued expansion of our specialty lines.

"With Paul leading the effort, we're well positioned to bring deep expertise to a complex and evolving market. This follows our recent entry into political violence and reflects our commitment to building a comprehensive and responsive product suite."

Talbot declined to comment.
